Certificate of Analysis

Ipamorelin 5 mg • Research Peptide • Lot: IPA-2026-0715A

REPORT TO

Regenerative Health Peptides
Client Ref: RHP-IPA-0628
Contact: lab@regenerativehealth.com

SAMPLE INFORMATION

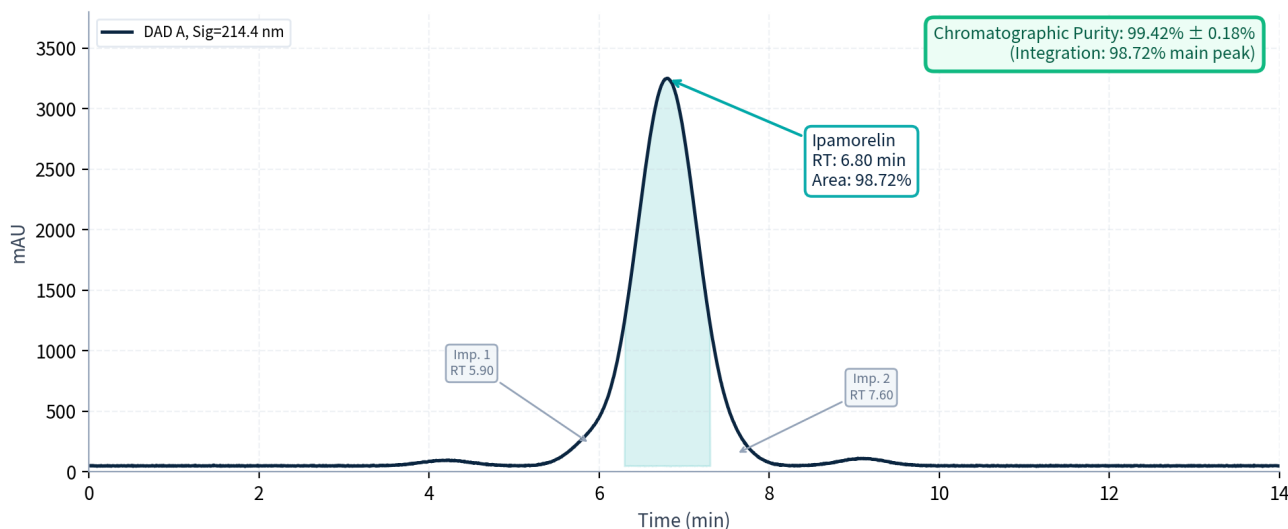

Laboratory ID: NEX-20260702-001
Date Received: June 28, 2026
Date Reported: July 02, 2026

TEST RESULTS

Parameter	Method	Specification	Result	Status
Identity (Ipamorelin)	LC-MS / MALDI-MS	Confirmed match to reference	Confirmed	✓ CONFORMS
Chromatographic Purity	HPLC-UV/VIS (214 nm)	≥ 98.0 %	99.42 % ± 0.18 %	✓ CONFORMS
Net Peptide Content	HPLC Quantitation	Report actual mg	5.12 mg	✓ CONFORMS
Appearance	Visual Inspection	White lyophilized powder	White lyophilized powder	✓ CONFORMS

ANALYTICAL DATA

HPLC Chromatogram — UV Detection at 214 nm

Chromatogram generated under validated HPLC method. Peak integration performed with validated software. Full raw data available upon request.

APPROVAL & CERTIFICATION

Prepared By

Jordan Hale, M.S.
Senior Analytical Chemist
July 02, 2026

Reviewed By

Dr. Elena Vargas, Ph.D.
Laboratory Director
July 02, 2026

Approved By

Marcus Chen, MBA
Quality Assurance Manager
July 02, 2026

DISCLAIMER: This Certificate of Analysis applies solely to the specific sample(s) tested as received and identified above. All analyses were conducted in accordance with Nexus Analytical Labs' validated methods and Quality Management System.
